## Human Trafficking , Child Porn And Prostitution Bangalore June to September 2016

### Statistics

- ✚ 20 colleges 550 students surveyed
- ✚ 63% boys watch rape videos average 26 per week
- ✚ 79% boys said if a boy watches rape it inspires them with desire to actually do a rape
- ✚ 48% watch child / teenage pornography
- ✚ 38% use prostitutes!!!
- ✚ 43% of pornographic Web sites have teen porn (average for South India)
- ✚ 82% said that porn is addictive and progressive
- ✚ 87% said that porn inspires the use of prostitutes
- ✚ 91% said they would put porn blocking free software
- ✚ 99% said that the seminar had changed them

## Programs Against Human Trafficking

Porn watching leads to a desire to see younger and younger naked girls on their mobiles. We explain to the students that porn turns good men into paedophiles. The demand for this sort of porn is met by brothels (prostitution centres) throughout the world, who purchase kidnapped high school girls on-mass, who are then forced to make porn in-between satisfying customers. We warn the younger students that porn would inspire them to use prostitutes.

We explain that Indian girls are being abducted, tortured, raped, starved, and drugged until they comply with their new owners to be submissive sex slaves and youth porn stars. They have to serve 7 men a night locked up in a room like prisoners, never allowed out, for an average of 8 or 9 years until they die of AIDS, other STDS or trying to escape. (NHRC)

We explained to the male youths how teen porn fuels this terrible massacre and violation of the daughters of India.

## 4000 Gang Rapes / Day In Bangalore!

4000 High school girls Gang raped each day in Bangalore Brothels. We called a press meeting to explain the root of the exponential growth of this terrible social evil: teen porn, showing the results of our survey summarized above.

Source of 4000 gang rapes / day:

### Girl Child Day Protest / Press meet

### AIDS / HIV Promiscuity Prostitution Hubli Belgaum January to April 2017

#### Statistics

- ✚ Total South India survey conclusion: colleges 272, students surveyed 5800,
- ✚ 67% have boyfriend girlfriend, 2.5 hours a day on phone to them, 49% meet outside secretly
- ✚ 23% girls 30% boys sleep with lover
- ✚ 85% say porn inspires sex before marriage
- ✚ 24% pay for sex
- ✚ 62% agree that porn affects behaviour,
- ✚ On average youths see 82,000 naked ladies video clips by the time they are married.
- ✚ Each year half a million girls of college age in South India get pregnant and have abortions.

We explain to students that HIV/AIDS has taken the lives of 70 million people in our generation. (WHO stats). Unnatural relationship, use of sex workers and sexual promiscuity therefore are clearly dangerous irresponsible habits. We document how family planning is on average only 83% successful in stopping pregnancy in a one year relationship so they should wait until they are married. Countries that have higher rates of promiscuity among youths also have much higher divorce rates => healthier, more successful marriages occur when youths display self-restraint before marriage. Marriages ruined, children fatherless, increased suicides and social unrest are all the fruit of on mass porn addiction we teach.

## Drug Enforcement Officers Meeting With Hubli City Pharmacists

We were invited by the Drug enforcement officer of Hubli City to speak for 1 hour to all the 70 Pharmacists (medical shop owners) against female foeticide, youth abortions, and the illegal nature of giving MTP kit for abortion without a Dr's prescription.

Working with other NGO's to impact the media on girl child day had great press coverage amazing results.

## Summary

20 colleges and 5000 students per staff member good but relatively low compared to other years and average cost was all time high at 19 Rs per student. Lets double our coverage next year!
