

The Poison of Pornography

- 84% say that it is Progressive and addictive ie soft porn leads to hard porn: rape, child, teen...
- 33% watch 14 rapes per week
- Approx: 65 million (6.5 crore) rapes watched per day in India by college aged boys alone. 1 million rapes watched in Mumbai per day by college boys.
- 5 million new teenage boys start watching violent porn / rape each year
 - 69% say watching rape bf's gives desire to actually rape, even if only 10% act on this desire => we are raising up 3 lakhs new rapist per year in India thru porn. source for above statistics rescue survey 2012-2015 (google rescue survey porn)

Install Porn Blocking Software On Your Digital Devices

We can all be tempted even if we have decided to keep our eyes for our life time lover. Better to remove the temptation in an easy step. Install a new browser that will block all the porn web sites. We recommend [K9](#) free software for apple devices , and [SPIN Safe Browser](#) for Android with [Manage SPIN](#) (Rs 50 pcm or Rs 500 pa). There are free ones but not so good or slow device down significantly, if you find one that is free that really works please [let us know](#). (abishekcliff@gmail.com). You will need to get **a friend to put the password** on for you. Yes its humbling but it will really challenge your friend and start a good conversation as well. Why not simultaneously put the software on his mobile, if they are a good friend, you pay! You put the password on their mobile and when they phone you in the night and plead with you to give password , be strong and don't give in! If you have boyfriend / girlfriend you can put the software on their mobiles. You want their passion only for you right?

SPIN safe browser blocks all porn web sites and Manage SPIN blocks all other browsers. Virtually all porn blocking software are browsers that replace your chrome or android browser. Apart from the expensive ones like Net nanny, these will only block porn web sites and not the soft porn which is posted on YouTube, google images, face book etc. We still need to be strong.

Female Feticide and Teen Pregnancies: The Baby Genocide

- 16 million pa in India (source mumbai population centre and Gutmacher institute new york) by interpolation:
- Mumbai: 20,000 MTP pcm (medical termination of pregnancy per common month) = equivalent of 1 large (400 child) primary school blown up by terrorists each week in mumbai (for last 20 years and still continuing)
- 4000 college age girls get pregnant and terminate their new son / daughter in womb (MTB) every month in Mumbai!
- 3 main methods: D and C scraping baby out using knife (curette) , Dand E ripping off arms and legs inside womb and pulling out using cutting plyers, and baby poison (abortion tablet Mifepristone).
- Reasons for abortion with approx %: enough children already 28%, just had another child 20%, just married too soon 20% not married (youth) 20%, it's a girl (female foeticide) 10%, rape 0.4%, handicapt 1.5%, save mothers life 0.1%: **Note** people normally argue for abortion because of rape and health reasons but these are only 2%!
- The life of the baby trumps the inconvenience of the mother

Promiscuity (Sex Before Marriage Vs 1 Life Time Sleeping Partner)

- Effectiveness of contraception is only 83% in a one year relationship => almost 1/5 chance of pregnancy each year despite contraception.
- Reasons for no sex before marriage :
 - Sex is body glue (2 shall become 1 flesh) it 'makes love' and works on one person, virginity is 'fresh glue', poster example
 - If not virgin, glue is spoilt, couple are making lust, making babies but not making love. Eg super glue
 - 99.3% HIV spread not thru needle or blood but sexual promiscuity (excluding needle drug users)
- Compare watching 1st 15 minutes of 5 films Saturday night but no film fully with promiscuous lifestyle
- Don't let anyone use your body / glue unless they have made a contract that its for life.

Human Trafficking: On Mass Gang Rape Of Teenage Sex Slaves

- NHRC (national human rights commission) stats:
 - 500 girls pcm abducted / trafficked
 - each trafficked girl has 7 customers per night
 - each customer is not making love but raping the girl => she is gang raped every night.
 - In Mumbai 17 ,000 teenage / high school sex slaves => 17,000 gang rapes per day in Mumbai
- Similar statistics: cbi former head ashwani kumar, BBA report. NCRB is lower as when girl missing they file measure ineffectively.
- Abduction methods: fake lover, predator in net , fake jobs.
- 1 crore rupee per day spent on teenage prostitutes.
- 40% guys watch and say favourite porn is teen porn which advertises paedophilia and made by trafficked girls
- teen porn fuels trafficking,
 - the more they watch teen porn greater desire to try it out with teen prostitute, supply meets demand the more teenagers have to be abducted and forced into escort or prostitution services,
 - the more teen porn is demanded the more young girls are abducted to produce it.
