## Drugs, Alcohol and Corruption Mysore and Mandya May to November 2017

We warn on the addictive nature of alcohol, the dangers of drug overdose and accidents associated with drink / drugs and driving, we warn about suicide due to broken relationships and teach on how bribes and corruption have kept India a poor nation in the past.

DDPI permission for high schools k9 project

Liny on our new Hero pleasure bike Thanks Miji!

## Parents Awareness Programs October 2017

Since it is so hard to get parent to come to a special PTA meeting to educate them on protecting their children from porn and internet dangers and the solution of using parental software to monitor their child's online activities we distribute letters to high school headmasters after having secured the permission of the Deputy Director of High school education for the whole of Mysore district. The software is free and produced by at least 20 different companies. Schools accepting letter: 63 (91%) **Total families reached: 11,400**

## College Photos selection

ID Bangalore Hassan and Madikeri December 2017 to April 2018

### Statistics

- ✚ 47% believe man evolved from monkeys, Charles Darwin's theory of evolution explains human existence
- ✚ 17% believe life has no purpose, there is no moral accountability to anyone, and there is nothing after death.
- ✚ 53% origin of life and humans is from a supreme supernatural being of some type.

As well as all our normal topics and especially in science based colleges (Engineering, science, medical etc) we added the issue of origins. Using science topics like DNA, cells, Proteins, animal kingdom, big bang cosmology we presented multiple scientific evidences which point towards an intelligent designer of life , the universe and complex organisms. We challenge the theory of Darwinian evolution , so called missing links between monkeys and man, the misinterpretation of the fossil record to show students that many scientists have faith in some form of creator, the identity of which we do not address in our programs. In many programs we conducted debates on these issues and even 90% of the science lecturers voted for special creation as opposed to evolution as the best explanation for the origin of life. In all our programs we invite questions from students and encourage them to start to be socially active , and to learn more from our and others web sites on all these topics.

We found that when we specialize in this way we get far more bookings from colleges. In this was we touch on oral health in dental colleges, MTP in nursing and medical colleges, multiple new laws on these issues listed below in law colleges, Intelligent design in science based colleges, our work in the media in Journalism and mass media colleges, the action work we do in MSW / BSW colleges, anti bribery in MBA and commerce colleges and sexual harassment in all girls colleges. We also found that post graduate sections were much more accessible when we touched on their syllabus.

### Laws for law colleges

- 1) MTP act 1971 ...Abortion
- 2) PCPMDT act 1994 ...female foeticide
- 3) IT act 2000 updated 2008 section 67a ...Pornography
- 4) IPC 375 376 (gang rape) criminal law amendment act
- 5) POCSO 2011 protection of child against sexual offence
- 6) Immoral Trafficking Acts : SITA 1956 (suppression) PITA 1986 (prevention) ...Human trafficking
- 7) Sexual Harassment of Women at Workplace Act, 2013
- 8) IPC 377 ...Homosexuality

### Poster Project May 2018

We designed posters against these social evils displayed above in English and Kannada languages. Poster were put up in **90 colleges Totalling 360 free posters** against these social evils in 2 weeks with 3 teams.

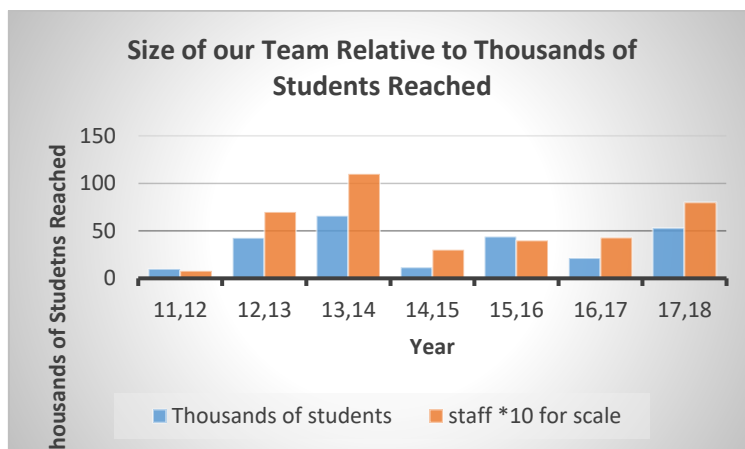

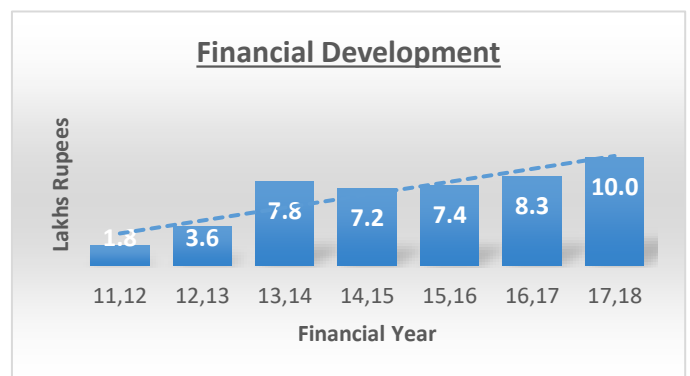

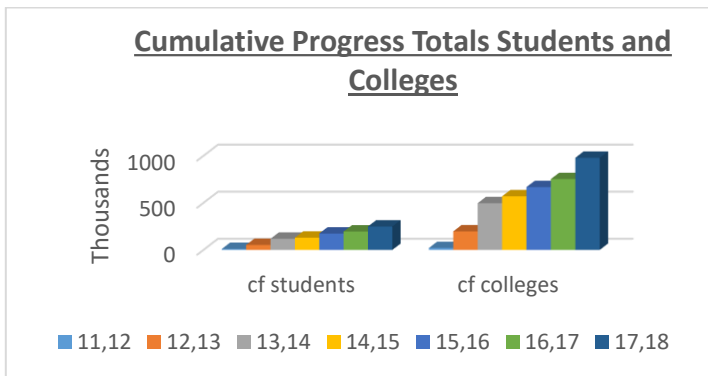

## Progress of NGO Charts

*We have reached ¼ million students and almost 1000 colleges With average 5 staff since 7 years!*

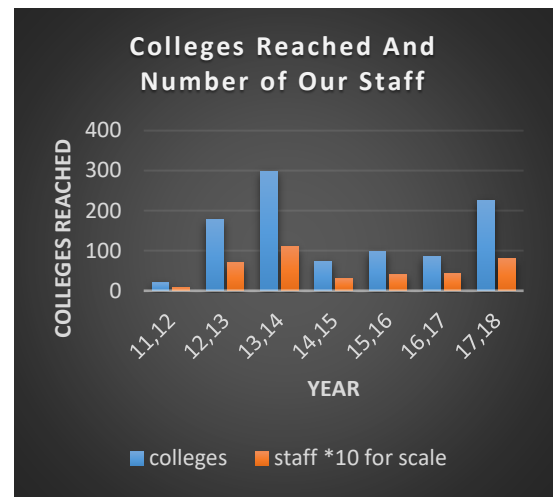

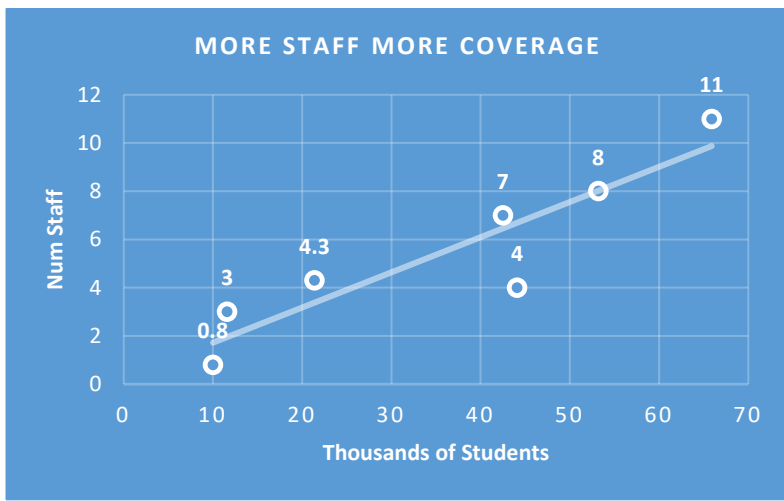

It costs Rs 12.5 per student, Rs 1600 per hour class average.

Each staff reaches 6000 students and 25 colleges per year average.

Average honorarium has been 4000 rs per volunteer staff per month.

The more funds we raise the more colleges and students we can cover as these graphs show.

Still no major CSR donars, still paid average 5,500 rs to reach half a lakh students was amazing. Overall average is 750 students per staff per teaching month ( 8 months of the year) the other 4 are holidays and exams where we do other social activities , maintainance, recruiting, training, preparation for new cities etc. If we want to keep staff long term need to make their work a career option not just a volunteer on minimal pay. They are great and give sacrificially so much time as volunteers however they are all no longer just youths but married young adults wishing to start families with wives having children and not being able to work , halving their income. We are confident in finding major donars or csr companies with burden for anti trafficking, anti rape effective social work soon.

Well done staff reaching ¼ million students over the last 7 years with average only 5 full timers that is incredible!
