

2018-2019 Annual Report President

Sunil speaking In BM Patil Nursing College, Vijayapura On Cyber Ethics & How Pornography Will Spoil Indian Families

Liny KLE Law college Mumbai Why Youth Abortions Harmful
90% of students changed their minds

Total Students For Year 44,035

Colleges 208 Two Hour Classes 341

Total Expenditure Rs 10,91,648

Student Awareness Programs

Rescue's main focus is to inspire youths to keep away from bad habits such as porn addiction, sexual promiscuity, unhealthy sexual activities, and prostitution, as well as warn on the dangers of human trafficking, youth abortions and the population shift due to female foeticide. We conduct 2 hour awareness programs in PUC and Degree colleges covering these issues. College principals are very positive and pleased that we address the issues of youth relationships and comment regularly that "it is the need of the hour" but that their staffs are too embarrassed to address these crucial issues. We do regular research and surveys to see the impact of our programs which are recorded throughout this document. We aim through these programs to reduce the incidents of rape and sexual harassment and discourage promiscuity and the unethical western version of relationships which ruins families. Recorded below are summaries of where we have done these programs city by city , year by year, with links to all the contact details for each college on our web site which has photos and principal signs for each seminar we have conducted. We teach on these multiple subjects in each city although the emphasis varies and one of each topic is described in each section / place below.

This satisfies sections 1,2,3,4,5,6 in the Primary Aims of the Trust Deed, Social Work Section

Vijayapur June to Sept 2018

June to September 2019

- In View of Abishek Clifford's announcement of Return to UK in 2020, the 10 member team split up into 5 teams or two so that 4 new leaders could be empowered. Sunil led a team in Vijayapur, Madhu in Bidar, Viji in Mysore (although pregnancy prevented much activity) , Liny in Bangalore. We reached record numbers in this 4 month time! New leaders are ready.
- The New team we tried to establish in Bangalore did not stand, salary too low and too much work. We had one year sponsors who helped and Swathi tried her best but this is difficult work!
- Agape for schools and i-Transform for colleges: These 2 NGO's take over Navi Mumbai college work. We took their staff for ignite and college programs and allowed them to take part in the programs until they were ready to do fully. The wife of the commissioner of Mumbai airport Malar was most active.
- Helped launch Light Pro to work in colleges in Navi Mumbai on our topics. They put large budget and 18,000 pcm salary for full time staff for this position.
- September 2018 Abishek Clifford steps down as CEO, trustees to take greater role in managing and advising team leaders as Abishek moves to different states.

Gadag Christmas Photos Last week of 2018

Budget was 40,000rs : we raised funds from Nicola's Dance Class and Margaret's Keep fit classes and other donars. We had fire works display and water park outing and 3 days with HIV negative chidlrens 60 children in Gadag. Liny Shruthi Madhu and Abishek took part.

Most students have never heard a seminar on why pornography will ruin their marriage, studies, concentration on work, psychology and society. We give 10 reasons why they should stop watching porn. 91% of boys after the program report that they will put porn blocking software on their mobiles. So that we can reduce sexual harassment and rape epidemic in India we have to address the root of the exponential increase in these issues: violent pornography. We warn the students in these seminars that violent pornography may inspire: violent sexual assault, turn them into a rapist over time, desensitization of the horror of rape, violent behaviour in the marital act and the viewing of progressively more aggressive and dangerous forms of pornography that will warp their natural minds.

- September press meet: We did research for over a year in Mumbai and published the results impacting lakhs of adults concerned about these social evils:

Survey: 5 Deadly Impacts Of Hard Core Porn On Mumbai Students

The survey was conducted by Abhishek Clifford CEO of Rescue Research and Training Charitable Trust, a statistics lecturer from London.

500 students in **30** English Medium Junior and degree colleges over the last year were asked Questions about the types of Pornography that their peers watch and about their sexual activities. The questionnaires are attached in this document. Target age was 16 to 22 year old youths.

(Sample 533 = 188 boys and 345 girls. More girls as 60% of difficult questions girls responded don't know =>207 actual girls responses. Cluster sampling 30 colleges optimal sample size 20 each college but average obtained 18)

1. Sexting, Sex and Youth Abortions

33% of boys and **24%** of girls are sexting, that is sending naked photos of themselves to the opposite gender to get better or more relationships. This leads to more promiscuity and according to the survey **35%** of the students are engaged in full on sexual relationships. Many college principals were aware of this and even Junior college principals in some areas said that half of their 16,17 year olds were sexually active. Students were shocked that contraception is only **85%** successful in a one year relationship and this is leading to the result that **10%** of the girls get pregnant during their time at college. => 4000⁽¹⁾ college girls get pregnant and have an abortion each month in this city. So youth pregnancies is twice as frequent as female foeticide. Sexting: it looks like India is catching up with UK where high school girls use sexting to earn money: Will we let porn turn Indian teenage girls into porn stars?

2. Violent Porn and Rape

40% of boys watch violent porn and they watch an average of **40** rapes per week on their mobiles! This extrapolates to

2 Million⁽²⁾ Rapes Watched Per Day In Mumbai By College Boys

No wonder sexual harassment is increasing. 63% of boys said that watching violent porn gives them the desire to actually participate in a gang rape. => 25% of college boys desire to rape!⁽⁷⁾

3. Anal and Oral Deadly Activities

According to the students: **56%** of porn web sites depict oral and anal sex. **67%** of the male students said that watching this inspires them to actually employ these methods of sexual activity, either with girl friend or, if she is not interested, with escort services / paid prostitutes. *Students were unaware that such activities increase the chances of acquiring STDs (HIV etc.) by 180 times =18,000%⁽³⁾ and take on average 14-20 years of someone's life⁽⁴⁾. If someone puts their hand in the sewage twice a week it would certainly affect their health. Putting their private parts into someone's anus is just as deadly. No one touches the inside of the toilet and then puts their hand in their mouth but that is how un healthy and un natural oral versions of physical relationships are.* (In March 2018⁽⁶⁾ the TOI published that oral sex increases the chances of oral cancer by 22 times as it transmits HPV which has a 70% link to oral cancer according to research by Albert Einstein Medical centre USA.) **70%** of students said that they did not agree with the current pressure to accept relationships that can only use oral / anal methods i.e. those of the LGBT community, while feeling that they should accept the people. *Are the LGBT activists suppressing the true danger of these methods to secure national acceptance, similar to the decades of suppression of the deadly nature of smoking perpetrated by the Tabaco industry? (Denying the link between smoking and lung cancer.)* **64%** of porn web site depict gay sexual content.

4. Prostitution

59% of the boys said that porn inspires the use of escort services or prostitutes i.e. paying for sex. *(Their girl-friend may not be willing to do all the weird stuff depicted in porn or they want a more violent experience.)* **26%** of college

boys pay for sex. The first law of commerce is the supply meets the demand. Since so many are willing to pay, a horrific **one in eight** college girls (**13%**) are willing to sell their bodies for cash!

5. Child / Teen Porn

46% of young men watch teen porn (child porn) fuelling the Human Trafficking of increasing numbers of young girls. This is the primary reason that the number of teen prostitutes has risen to a horrifying 9000 in this city according to the 4 national surveys. These trafficked girls have to service seven men per night without consent, it means that there are **9000 gang rapes per day in this city of teenage girls!** ⁽⁸⁾

This data is distributed to educational and government authorities demanding action. If unchecked the consequences on Indian families, women, girls and society is unimaginable.

Easy Solutions / Recommendations

Rescue conducted programs in **80** colleges totalling **130** cyber ethics seminars to **15,000** students over the last year. (84 colleges 131 classes, 14,769 students) www.rescue108/records108

1. Cyber Ethics In The Syllabus At College Level

- After our programs 90% of the boys and 98% of the girl students said that all youths should have awareness of ethics of relationships and warnings about the dangers of hard core porn. (33% boys 46% girls did not know what sex was in high school, 26% never watched porn in High school so correct age is class 10 or junior college and degree college age to include cyber ethics in syllabus)
- 41% girls watch porn, 4 hours a week average. 86% of girls who thought porn, sexual activity and abortion were acceptable changed their minds because of basic ethical education on these issues. 92% of boys said they would put porn blocking apps on their mobiles. (These last two figures only are from our national survey.)
- Cyber ethics and youth relationships should be added into the syllabus in India.
- Sunny Leone's husband goes to UK and speaks in colleges promoting porn. Abhishek is from UK and speaks in Indian colleges against porn. Rescue challenges Daniel Weber to public debate on Porn!

2. Porn Blocking Apps

- There are many free apps on google play that parents can use to protect their children. According to our research these block 84% of bad content and 100% of hard core porn as the students reported that they only access 6% of their porn from Whatsapp 2% from Facebook and 8% from Youtube and these are only soft porn. Many students using 'Spin safe browser and Spin Manager' much cheaper than foreign good blockers like net-nanny.
- IT Companies should use some of their CSR funds to develop free porn blocking browsers to protect the children, and youths in India. CSR policy should highlight activities to bring

3. Law To Stop The Promotion Of Dangerous Methods

- When we promote same gender relationships whose only option is anal oral, are we not forgetting to warn about the health implications? We have decriminalized anal sex but now it is **promoted** day and night in media and porn. If the Government is really for promoting traditional values then they should pass a law to criminalize its promotion. Smoking takes 7 years off someone's life and its promotion is illegal. How much more should this be applied to anal sex which is two to three times as deadly?
- When anti-smoking ads are shown no one cries "Hey you are being Smoker-phobic!" Anal sex with explosive promiscuity has taken the lives of 19 million (2 crore) gay lives in our generation. ⁽⁵⁾. Warning about its danger is not hate speech but since it is trying to save millions of gays' lives is 'love speech'. Activists that suppress the truth of these clearly documented dangers are the ones really guilty of 'Hate speech'!

While highlighting the problem in Mumbai we are doing a national survey and are not suggesting that this area is the only bad place, it is bad everywhere.

The Average Standard deviation in the results across all 12 cities / districts where we conducted previous surveys was 9%. I.e. the results across India were 91% similar and regional variations were minimal. This is a national problem. However the results for rural and vernacular medium students on average were about 10% less.

३० महाविद्यालयात झाला लैंगिक संबंधांचा

- 6 new teams in Mumbai trained by Liny Babu

6 passed the exams with marks from 70-90% new staff in action shown below. 2 teams will be our new branches all volunteers although hoping to raise funds through local business. Have one company committed to give CSR funds at last ! Crisil.

From bottom left anti clockwise: Madhu, Hema, Vinod and Christine.

- We taught the students the value of life of the unborn baby, show how it develops in the womb with power points and videos, explain the consequences of terminating female babies in terms of warping the gender distribution in the nation , explain the barbaric nature of medical termination of pregnancy and warn of the health implications of repeated youth abortions. According to the 2011 population census there are presently 20 million more boys than girls at around primary school age. Therefore 20 million men in the next generation will never find a wife. Already rape, prostitution and trafficking are rife, how much more will it be a menace for the next generation?
- November 2019 Abishek Clifford announces leaving Rescue to return to the UK early next year 2020. Trustees meet to discuss greater oversight and new leadership structure.

CRISIL ‘Change the Scene’ CSR Project – “Cyber Ethics and Youth Relationships” in Mumbai (December’19 to March’20)

Our first CSR Project funded by CRISIL Foundation, Mumbai was 90% successful despite the abrupt pause owing to the Coronavirus lockdown. A budget of Rupees 2,00,00/- was allocated by Crisil for the same, of which Trachee 1 of Rupees 1,00,00/- was received by Rescue. A total of Rupees 99,354/- was used up in expenditure for a voluntary team of 6 to carry out the activities.

As suggested by CRISIL, we took feedback from some colleges regarding these programs especially since they were done by our new volunteers:

Maniben Nanavati women's College: 90% positive (70% voted Excellent, 20% V.good), 10% neutral and 0% voted 'bad'.

Dr. Pillai Global Academy: 56% rated 8,9 and 10 on a 10 point scale, 39% rated 5/6/7 and 5% rated remaining.

Tolani College 800+ students: 95% students voted 'Excellent' and 'Good' while 4% voted 'Average' and remaining 1% voted poor.

Medical Shop Survey

We sent unmarried girls to 214 medical shops in Mysore and Mandya district, to find out if they would illegally sell abortion (MTP) tablets to them. It was illegal in 2 ways : 1 they were unmarried (MTP Act) 2 they had to prescription. Results were as follows:

21% agreed to sell MTP tablets with prescription, 39% agreed to sell MTP tablets illegally without prescription, 40% would not sell on moral grounds.

We have to take analyzed results to newspapers and drug enforcement officers and try and get a meeting with all pharmacists to explain the law and the moral of youths having easy access to MTP kits which emboldens them into promiscuity.

Programs Against Human Trafficking

Porn watching leads to a desire to see younger and younger naked girls on their mobiles. We explain to the students that porn turns good men into paedophiles. The demand for this sort of porn is met by brothels (prostitution centres) throughout the world, who purchase kidnapped high school girls on-mass, who are then forced to make

porn in-between satisfying customers. We warn the younger students that porn would inspire them to use prostitutes.

We explain that Indian girls are being abducted, tortured, raped, starved, and drugged until they comply with their new owners to be submissive sex slaves and youth porn stars. They have to serve 7 men a night locked up in a room like prisoners, never allowed out, for an average of 8 or 9 years until they die of AIDS, other STDS or trying to escape. (NHRC)

We explained to the male youths how teen porn fuels this terrible massacre and violation of the daughters of India.

Gadag December 2019

[Click for 2 minute video on YouTube:](#)

Christmas with Orphans 2019

We raised 33,679 We took the 50+ semi Orphans to water park, had fireworks display, taught songs, did games, quizzes , competitions, sports, we gave prizes. (see video link youtube above). Esther has faithfully served polio children and then these HIV negative children for 3 decades! It is always a pleasure to help her for a few days.

AIDS / HIV Promiscuity Prostitution

We explain to students that HIV/AIDS has taken the lives of 70 million people in our generation. (WHO stats). Unnatural relationship, use of sex workers and sexual promiscuity therefore are clearly dangerous irresponsible habits. We document how family planning is on average only 83% successful in stopping pregnancy in a one year relationship so they should wait until they are married. Countries that have higher rates of promiscuity among youths also have much higher divorce rates => healthier, more successful marriages occur when youths display self-restraint before marriage. Marriages ruined, children fatherless, increased suicides and social unrest are all the fruit of on mass porn addiction we teach.

We had to cut-short our 2020 Tumkur, Cochin and CSR Mumbai projects and cancel several programs as the colleges and schools closed due to the corona virus, which is why we weren't able to hit our 40,000 students mark this year. During the April-May lockdowns we focused intensively on training, fund raising and other team-building activities. We also anticipate that the colleges will be on a hectic schedule when they re-open and therefore we might have to reduce our teaching hours and shift our attention more on to raising up teams and helping our volunteers complete their internship. We have in mind, other districts of Kerala like Kottayam and Trivandrum and Hassan and Shivmoga in Karnataka as our upcoming projects.

We also bid farewell do our dear friend Mr. Abishek Clifford who served as CEO and English team leader in Rescue since its inception in 2011, faithfully serving this nation to preserve our- in his words, "superior family values" and promote sexual ethics that has been long lost in the Western world. Abishek returned to the UK in May during the Covid 19 lockdown under British repatriation special flights, wrapping up his social service here as he felt it was time to help bring transformation to the society there. We will miss him but are confident that the work will continue and increase as the movement grows.
